Forest Hill, another quality development of Austin Highlands, Inc, is already 50% sold and occupied. Austin Highlands, Inc. began building multi-family communities in 1962 and prospered throughout the 1960's building both multi-family developments and single-family homes on the southwest side of Chicago. During the 1970's we built or converted hundreds of multi-family apartment units including the Briargate Apartments located in Chicago Ridge, The Briarcliff Apartments in Worth and the Clareridge in Chicago Ridge. The company also completed numerous additional apartment buildings, single-family homes, and commercial properties during this period. One of our finest accomplishments is the development and construction of Orchard Lakes town homes in Wood Dale. Traditional design and quiet neighborhood add to the charm of this special community by the water. Austin Highlands, Inc. is committed to a tradition of building quality and value in every community and new home we deliver to our customers.
